

ROLE PROFILE - SECURITY CONSULTANT (IDENTITY AND ACCESS MANAGEMENT)

Overview of the Role

Pirean' Security Consultants assist organisations in developing a business competitive differentiation through leading Identity and Access Management (IAM) services.

Pirean's Principal Security Consultants excel at advising organisations, delivering services, leading transformation initiatives and managing relationships.

The sought candidate is a very experienced, credible, confident and passionate Identity and Access Management specialist who has a proven record of leading IAM initiatives in both pre-sales and delivery activities, including:

- Delivering IAM strategies covering business, security and technical requirements,
- Assisting organizations in developing their IAM requirements,
- Defining IAM architectures and solutions,
- Delivering IAM solutions.

This is a direct client facing role that requires:

- an expertise in information and cyber security technology,
- an expertise in software development (pref. Java),
- a very good knowledge of Cloud infrastructure management,
- an asserted knowledge of Identity and Access Management practices and technologies,
- very good interpersonal and communication qualities,
- a good knowledge of Mobile applications technology,
- a thirst for innovation and a commitment to making a difference for our clients' businesses.

You will benefit from leading technology training and the mentorship of a very experienced team in Australia and the UK.

Skills & Experience

The following attributes will also be favourably considered:

- Java software development skills,
- Knowledge of Cloud architectures,
- Knowledge of Mobile applications and solutions,
- Knowledge of IBM IAM technologies and supporting infrastructure.

The position will report to the General Manager for Pirean Australia and New Zealand.

Full time. Business travel expected.
